

# RIDGE

## PEAK EASY

### VENTILATED RIGID RIDGE ROLL

#### DURABLE

The choice of metal material ensures excellent UV stability even in harsh climate zones.

#### FAST INSTALLATION

Quick and easy to install, it adapts to any ridge line.

#### TECHNICAL DATA

Properties	value	USC conversion
Material	aluminium, butyl	-
Canopy width	160 mm	6.3 in
Butyl tape width	15 mm	0.6 in
Air passage	> 230 cm <sup>2</sup> /m	10.87 in <sup>2</sup> /ft
Strap elongation	40%	-
Butyl thermal resistance	-30 / +80 °C	-22 / +176 °F
Application temperature	+5 / +30 °C	+41 / +86 °F
UV resistance	permanent	-
Water tightness (when installed under tiles)	conforming	-
Storage temperature	0 / +25 °C	+32 / +77 °F

Waste classification (2014/955/EU): 17 09 04.
